2. การทำงานของ EDS

การใช้งานบริการสืบค้นข้อมูล Discovery Service

คุณภาพของข้อมูล และความสมบูรณ์
ของข้อมูล

ความซับซ้อนของเครื่องมือในการค้น
ข้อมูล

เครื่องมือใน EDS

Feature อื่นๆ ใน EDS

คุณภาพของข้อมูล และความสมบูรณ์ ของข้อมูล

การค้นหาคitationsและวารสารจากสำนักพิมพ์ชั้นนำ

- การค้นหาข้อมูลบรรณานุกรมแบบเต็มรูปแบบจากทั้งวารสารวิชาการและหนังสือ
- For-profit publishers
 - Elsevier, Wiley, Springer Nature, Taylor & Francis Informa, Sage, etc.
- Scholarly societies
 - AAAS, AIP, American Medical Association, ASCE, IoP, etc.
- University presses
 - Oxford, Cambridge, Chicago, Duke, MIT, Toronto, etc.

Full-Text Searching, Subject Indexes & Precision

- Full-text searching is useful for completeness, and EDS contains more full-text academic materials than any other discovery service
- However, precision is paramount when users are retrieving thousands or millions of articles and books
- **Subject indexing** can allow a sophisticated search engine to provide better matches at the top of the result list
- Other discovery services are focused far more on article title searching and full-text searching

Example #1 of Mapping in Action

learning aids

- *learning aids* maps to:
 - *educational media* (ERIC)
 - *educational resources* (GeoRef)
 - *instructional materials* (MLA International Bibliography)
 - *instructional media* (PsycINFO)
 - *teaching aids & devices* (Education Abstracts, Education Source)
 - *teaching materials* (MeSH/MEDLINE/PubMed, CINAHL)
- Users may revert back to original terms only, but user research shows that users prefer the results fine-tuned by mapping

ความซับซ้อนของเครื่องมือในการค้น ข้อมูล

นอกจากการวิเคราะห์เกี่ยวกับ

subject indexing และ **controlled vocabularies** ที่มีความ

เหนือว่า **discovery service** อื่นๆ แล้ว

EDS ยังพิจารณาถึงข้อมูลในส่วนอื่นสำหรับการสืบค้นในเชิงลึก...

Relevance Matching Priorities ลำดับความสำคัญในการให้นำหน้าข้อมูล

The system has the following priorities and has **no bias toward content from any provider:**

1. **Match on subject headings** from controlled vocabularies
2. Match on article titles
3. Match on author keywords
4. Match on keywords within abstracts
5. Match on keywords within full text

Exact Matches: Exact matches are favored over partial matches – considering also the field in which those words appear (abstract vs. full text vs. title, etc.)

Density: Matches across multiple metadata fields are favored for relevance scoring (more is better). The scoring influence of repeat terms within individual metadata fields is minimized.

Value Ranking ลำดับการให้ค่าของแต่ละรายการ:

Recency / Currency ความทันสมัยของข้อมูล

เนื้อหาที่ตีพิมพ์ใหม่กว่าจะมีน้ำหนัก
คะแนนมากกว่าเนื้อหาเก่า

Value Ranking ลำดับการให้ค่าของแต่ละรายการ :

Document Type ชนิดของเอกสาร

Certain document types are weighted higher than others for relevance scoring, for example:

“Review articles” are considered valuable

“Book reviews” are not considered valuable

If the word “book” or “review” is not searched,

there is a “bias” against book reviews,

so these don't dominate results

Value Ranking ลำดับการให้ค่าของแต่ละรายการ :

Document Length ความยาวของรายการ

Documents of a more substantial length
have a heavier weighting

(e.g., **a ¼ page article is considered less valuable** than a 4 page article)

เครื่องมือใน EDS

My Reflections on Publishing in Journal of Marketing

ContentServer.asp 1 / 7

V. Kumar

My Reflections on Publishing in *Journal of Marketing*

MY term as the Editor in Chief (EIC) of *Journal of Marketing (JM)* has thus far been highly rewarding. The full grant of papers I have processed assures me that *JM* continues to attract the best and brightest research studies. The strides *JM* has been making are impressive: the 2014 InCites Journal Citation Reports rank *JM* as the top journal in marketing, with a total citation count of 14,741 and a journal impact factor of 3.93. This coveted position places the journal in good stead. In this regard, I thank the authors, the previous EICs, the area editors (AEAs), the editorial review board (ERB) members, and the ad hoc reviewers for contributing to *JM*'s success. Furthermore, I am of the opinion that the sheer variety of high-quality articles and their contributions have added much prestige to *JM*. I am confident that this trend is only going to continue and will take *JM* to greater heights. In this regard, serving as EIC for *JM* is an honor and privilege that I truly cherish.

As with previous EICs, I am frequently asked two key questions by members of the research community at various conferences and symposia: (1) What types of articles does *JM* publish? and (2) Why do articles get rejected? I take this opportunity to answer these questions and provide my thoughts on publishing in *JM*. Then, I reflect on how a review team should evaluate a manuscript.

I answer the first question by discussing the type and nature of articles that *JM* publishes. Specifically, I present the popular domains of study and the classification of articles published in *JM* and note a few of my observations regarding these subjects, including the balance between "rigor" and relevance in research. I answer the second question by pro-

What Type of Articles Does *JM* Publish?

The short answer to this question is that *JM* articles should have actionable managerial implications. Irrespective of the focal area of the article or the type of methodology used, articles published in *JM* typically are rigorous and have meaningful, generalizable, and managerially relevant implications. To further elaborate on this answer, I delve into the following three perspectives: (1) the domains of knowledge, (2) the classification of articles in terms of study focus, and (3) the critical nature of rigorous and relevant research. These three aspects, in my opinion, provide a succinct understanding of this frequently asked question.

Domains of Knowledge

With regard to the domains of knowledge, all articles published in *JM* can be broadly classified into marketing management and strategy (MMA&S) or consumer behavior (CB). For the years 2013–2015, a total of 132 articles were published in *JM*. Table 1 provides a breakdown of the domains and the year-wise publication record.

As Table 1 shows, there is a 40–40 split between the MMA&S and CB domains in terms of articles published in *JM* in the last three years. This assortment of articles was processed by a healthy mix of AEs, ERB members, and ad hoc reviewers from both the MMA&S and the CB domains, which should indicate that *JM* is open to all research domains. Furthermore, in recognition of the American Marketing

Title: The Structural Influence of Marketing Journals: A Citation Analysis of the Discipline and Its Subareas Over Time. By: Bau

Database: Business Source Ultimate

The Structural Influence of Marketing Journals: A Citation Analysis of the Discipline and Its S

Listen American Accent

Contents

- Journal Influence
- Key Informants' Judgments of Journal Influence
- Citation-Based Measures of Journal Influence

The authors investigate the overall and subarea influence of a comprehensive set of marketing and marketingrela influence. The results show that a few journals wield a disproportionate amount of influence in the marketing jou journals. Different journals are most influential in different subareas of marketing; general business and managem influence over time. The Journal of Marketing emerges as the most influential marketing journal in the final perio of Marketing is notably influential among applied marketing journals, which themselves are of lesser influence. T influence but least so with the impact factors reported in the Social Sciences Citation Index. Overall, the findings de process.

Zika fever

Zika fever (also known as Zika virus disease) is an illness caused by the Zika virus. Most cases have no symptoms, but when present they are usually mild and can resemble dengue fever. Symptoms may include fever, red eyes, joint pain, headache, and a maculopapular rash. Symptoms ...

Zika virus

Taxobox. Zika virus (ZIKV) is a member of the virus family Flaviviridae and the genus Flavivirus. It is spread by daytime-active Aedes mosquitoes, such as A. aegypti and A. albopictus. Its name comes from the Zika Forest of Uganda, where the virus was first isolated in ...

10 เรื่องน่ารู้เกี่ยวกับ

1. สืบค้นทรัพยากรวารสาร หนังสือ, eBook หรือคลังข้อมูล (IR) จากสถาบัน
2. บริการสืบค้น วรรณกรรมวารสาร บรรณานุกรม และสาระโดยดั่งเขปคุณภาพเยี่ยม จากสำนักพิมพ์ชั้นนำ สมาคมทางวิชาการ และ สำนักพิมพ์มหาวิทยาลัย
3. ชื่อเรียกปรับเปลี่ยนตามแต่ละสถาบัน เช่น “Single Search” หรือ “One search”
4. ได้รับการยอมรับจาก มหาวิทยาลัยชั้นนำ ทั่วโลก MIT , Caltech , UC Berkeley และอื่นอีกมากมาย
5. สามารถเข้าถึงเอกสารฉบับเต็มได้ สะดวกและรวดเร็วเพียง One click

6. สืบค้นทรัพยากรเป็น Open Access ได้ร่วมกับส่วนที่สถาบันบอกรับ
7. เป็นการสืบค้นแบบ Relevancy Ranking ค้นข้อมูลเชิงลึก
8. สามารถสืบค้นคลังข้อมูล IR จากมหาวิทยาลัยชั้นนำ ในประเทศไทยได้
9. สามารถสืบค้นทรัพยากรระหว่างเครือข่ายในกลุ่มความร่วมมือภายใต้สำนักงานคณะกรรมการการอุดมศึกษา 79 แห่ง
10. ได้รับการสนับสนุน จาก สำนักงานคณะกรรมการการอุดมศึกษา
